PERFUSION – EVLP
CURRENT PRACTICES AND
FUTURE OPPORTUNITIES**

APRIL 5TH

12.15 – 13.15

ROOM: OCEANA 2

XVIVO
PERFUSION

EX VIVO LUNG PERFUSION

– CURRENT PRACTICES AND FUTURE OPPORTUNITIES

DATE April 5th
TIME 12.15-13.15
Box lunch will be served
VENUE Oceana 2 (inside exhibition hall)

DESCRIPTION

The scarcity of donated organs suitable for transplantation remains a challenge in lung transplantation. This symposium will focus on four different topics related to the extended utilization of donated lungs and how Ex Vivo Lung Perfusion (EVLP) can be used to break-down some of the barriers.

CHAIRMEN

Edouard Sage, MD, *Hôpital Foch, Paris, France*
Frank D'Ovidio, MD, PhD *Columbia University Medical Center, New York, USA*

PROGRAM

Transplantation of Lungs from Donors After Uncontrolled Circulatory Death

Tiago Machuca, MD, PhD, *University of Florida College of Medicine, Gainesville, USA*

Safe Use of Hepatitis C Positive Donors for Lung Transplantation

Marcelo Cypel, MD, *Toronto General Hospital, Toronto, Canada*

Ventilation Strategies and Prone Positioning of the Lung During Ex Vivo Lung Perfusion

Sue Braithwaite, MD, *UMC Utrecht, Utrecht, Netherlands*

The Secret Life of Donor Lungs

Greg Snell, MD, *Alfred Health, Melbourne, Australia*

This is an independent event and is not an official part of the ISHLT Annual Meeting and Scientific Sessions
